SETTING UP ENVIRONMENT
DOCKER CLI INSTALLATION

| Team ID	PNT2022TMID17803
Project Name	Plasma Donor Application
Team Members	Abhirami S S, Charu Nethra S
	Kishore Kumar K, Dinesh Kumar C

Step 1: To start with Docker installation check the official website for installation setup:

https://docs.docker.com/get-docker/
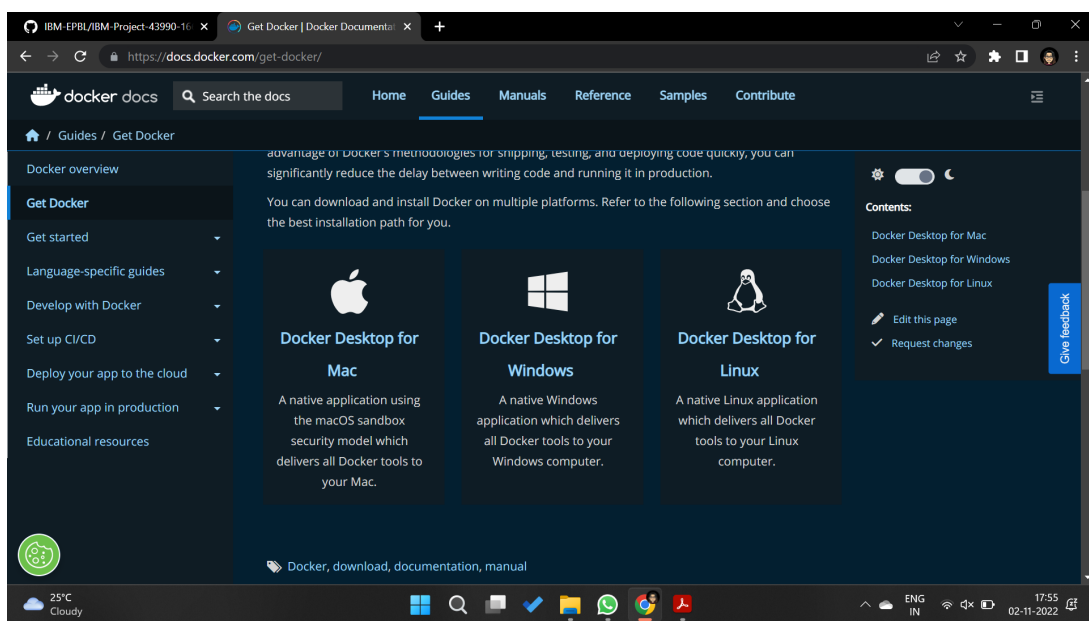

**Step 2:** Run the installation (which might take a while) and open the Docker Desktop Software

Step 3: Now while starting accept the terms and conditions and wait until docker starts

Step 4: Sometimes while trying to access any features an error box can be seen asking to install updated verison of Linux at https://learn.microsoft.com/en-us/windows/wsl/install for proper functioning, so proceed with the WSL setup.
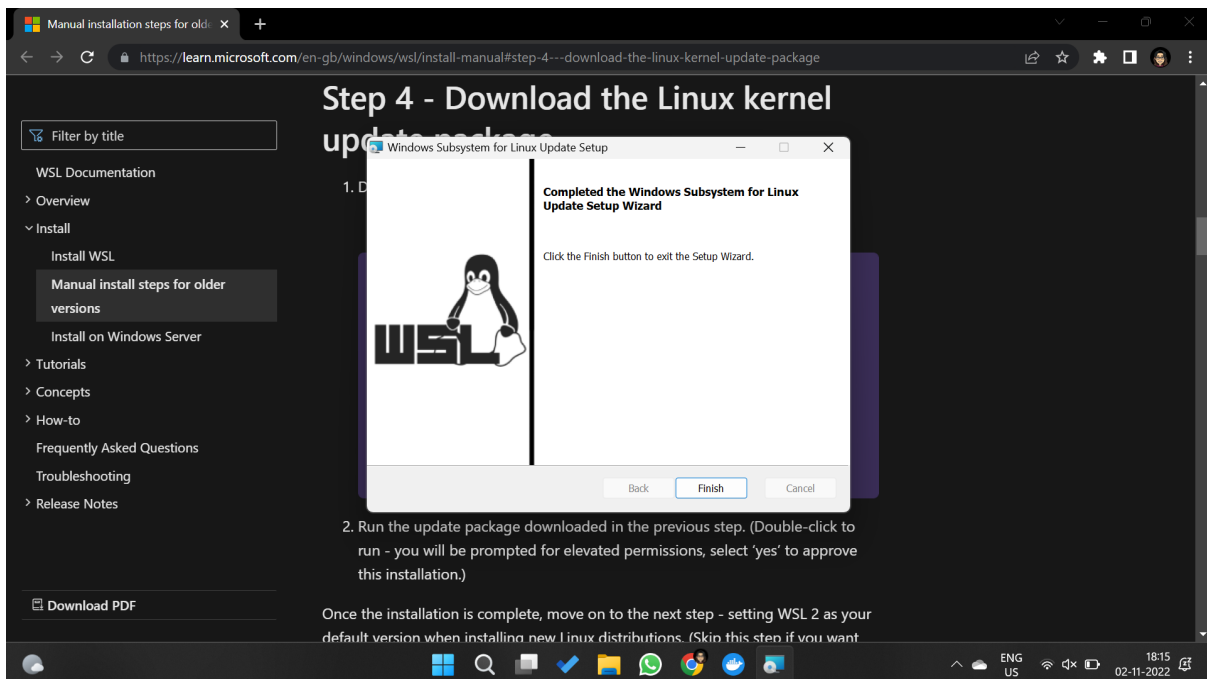

Step 5: Once done restart your system and try accessing docker features now Docker is successfully installed and ready to work.
